## Monthly General Fund Receipts through May 31, 2012

The spreadsheet at the end of this document presents FY 2012 General Fund total net receipts with comparable figures for actual FY 2011. The figures can be compared to the FY 2012 estimate of \$5.966 billion set by the Revenue Estimating Conference (REC) on March 23, 2012. The FY 2012 estimate is an increase of \$152.6 million (2.6%) compared to actual FY 2011 total net receipts (excludes transfers). The next REC meeting has not been scheduled.

## FY 2012 Compared to FY 2011

Year-to-date FY 2012 total net receipts (excluding transfers) increased \$218.4 million (4.1%) compared to FY 2011. Fiscal year 2012 net General Fund revenues were negatively impacted by a law change that requires the first \$106.0 million of cigarette and tobacco tax revenue to be deposited in the Health Care Trust Fund (HCTF). Without this deposit change, net General Fund receipts would be up approximately 6.1% for the fiscal year. Major revenue sources and their contribution to the FY 2012 change include:

- Personal income tax (positive \$147.9 million, 4.6%)
- Sales/use tax (positive \$111.4 million, 5.0%)
- Corporate tax (positive \$106.3 million, 31.9%)
- Other taxes (negative \$98.3 million, -25.6%)

- Other receipts (positive \$15.6 million, 4.9%)
- Tax refunds not including school infrastructure refunds (negative \$30.8 million)
- School infrastructure sales/use tax refunds (negative \$33.6 million)

**Personal Income Tax** revenue received in May totaled \$421.1 million, a decrease of \$13.6 million (-3.1%) compared to May 2011.

The FY 2012 REC income tax estimate of \$3.617 billion represents a projected increase of 4.5% compared to actual FY 2011. Through May, gross income tax receipts increased 4.5%. By subcategory, withholding payments increased \$84.6 million (3.4%), estimate payments increased \$25.9 million (8.0%), and payments with returns increased \$37.4 million (10.3%). The following graph on the left compares FY 2012 monthly income tax receipts for the three personal income tax subcategories to FY 2011.

**Sales/Use Tax** receipts received in May totaled \$323.4 million, an increase of \$23.7 million (7.9%) compared to May 2011.

The REC estimate for FY 2012 sales/use tax receipts is \$2.457 billion, an increase of 3.2% compared to actual FY 2011. Through May, sales/use tax receipts increased 5.0%. The preceding graph on the right compares FY 2012 monthly sales/use tax receipts with FY 2011.

**Corporate Tax** receipts received in May totaled \$61.9 million, an increase of \$0.8 million (1.3%) compared to May 2011.

The REC estimate for FY 2012 corporate tax revenue is \$495.0 million, an increase of 25.5% compared to actual FY 2011. Through May, corporate income tax receipts increased 31.9%.

**Other tax receipts** received in May totaled \$42.1 million, a decrease of \$8.2 million (-16.3%) compared to May 2011.

The REC estimate for FY 2012 other tax revenue is \$335.8 million, a decrease of 24.1% compared to actual FY 2011. Through May, other tax receipts decreased 25.6%. Cigarette and tobacco taxes are part of other tax receipts and cigarette and tobacco taxes have been negatively impacted due to a 2011 law change that altered the destination of \$106.0 million in cigarette/tobacco tax revenue. This change has decreased FY 2012 State General Fund revenue and increased revenue to the Heath Care Trust Fund (HCTF). The HCTF reached the allotted \$106.0 million in December, so all tobacco and cigarette tax revenue will be deposited to the General Fund for the remainder of the fiscal year.

**Other receipts** (nontax receipts) received in May totaled \$27.5 million, an increase of \$1.2 million (4.6%) compared to May 2011. Institutional payments, liquor profits, fees, and judicial revenue all increased, while miscellaneous receipts decreased for the month.

The REC estimate for FY 2012 other receipts revenue is \$341.3 million, an increase of 0.9% compared to actual FY 2011. Through May, other receipts increased 4.9%.

**Tax Refunds** issued in May totaled \$50.6 million, a decrease of \$6.7 million (-11.7%) compared to May 2011. In addition to regular refunds, school infrastructure refunds totaled \$30.7 million for the month, a decrease of \$1.9 million compared to May 2011. For the cash year, regular tax refunds have increased \$30.8 million and school infrastructure refunds have increased \$33.6 million.

## **Status of the Economy**

Iowa nonfarm employment was reported at 1,501,600 for the month of April (not seasonally adjusted), 16,200 higher (1.1%) than April 2011.

Iowa's 12-month average employment is presented as the blue line on the following graph. Iowa's average nonfarm employment peaked in October 2008 at 1,526,400, and was 47,700 above the peak prior to the previous recession (January 2001). The current 12-month average reading is now 1,482,200, resulting in an annual average Iowa nonfarm employment level 43,600 below the October 2008 peak.

The employment graph also presents Iowa nonfarm employment as a percent of U.S. nonfarm employment. Iowa's share of U.S. nonfarm employment decreased noticeably from 1999 through 2002, decreased at a much slower pace from 2002 through 2007, and increased from January 2008 through June 2010. Since that time, Iowa's percent of U.S. employment has declined as the percentage growth in U.S. employment has exceeded the percentage growth in Iowa employment.

The Consumer Price Index (CPI-U) through April 2012 was 230.1 (1983/84=100). Consumer prices increased 0.3% in April (not seasonally adjusted) and the annual rate of inflation stands at 2.3%, down from its recent peak of 3.9% (September).

Core CPI, an inflation measure excluding food and energy expenditures, increased 0.2% in April and totals 2.3% year-over-year. The annual rate of core inflation has increased in 17 of the past 18 months. For the two components excluded from the core rate, energy prices are up 0.9% year-over-year while food prices are up 3.0%.
